

FULL-STACK DEVELOPER

xwerx

The Full-Stack Developer bridges the gap between design and technology.

Candidates will be able to demonstrate an in-depth knowledge of Javascript and the ability to customise framework code as required (e.g., Vue, React, Angular).

You will be able to build functioning prototypes quickly and efficiently to help validate UX Design choices. You will focus on how to add interactivity to components – animations; touch, tap, and swipe gestures; component skinning, etc.

Requirements

- | Bachelor of Science in Computer Science or equivalent experience.
- | Experience in user-interface development, using the following technologies: HTML, CSS, JavaScript and the associated modern frameworks.
- | Experience with a modern programming framework and database system such as Laravel.
- | Ability to work independently.
- | Strong categorisation/data organisation skills.
- | Well versed in all aspects of the DevOps process, i.e. software change control and versioning.
- | Delivery focused: You are focused on shipping the product, and organise your work towards that goal.

Responsibilities

- | Work with other Software Developers to develop highly functional, scalable, reliable web based applications.
- | Rapidly create user interfaces for both Desktop and Mobile devices.
- | Participate in requirements gathering and analysis activities from a software developer perspective.
- | Identify, recommend, and embrace open-source software development.
- | Document and complete tasks and projects on time.

How to Apply

Please send CV and salary expectations before 26 March 2021 to Seán Murphy - jobs@xwerx.com.

Xwerx is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
