

We are looking for a UI Designer to join our busy UX agency.

UI Design focuses on the user's visual experience. It determines how a user interacts with an interface and how they navigate from A to B via different visual touch points. The job of a UI designer is to design all the screens through which a user will move, and to create the visual elements — and their interactive properties — that facilitate this movement.

There is an overlap into the world of User Experience with this role as well. If you can express an interest in — or experience of — UX related activities, that will assist your application.

Requirements

- | Proven work experience as a UI Designer or similar role. Ideally, you should have about two years under your belt but if you see yourself as a **rockstar graduate** 🎸 just out of college, we'd also love to hear from you.
- | An impressive portfolio of design projects including, for example — mobile apps, websites, eCommerce sites. If you have print work that showcases your eye for detail, please include that as well.
- | Up-to-date knowledge of design software such as Figma, Sketch, InVision, Adobe PS, etc.
- | Strong communication skills allowing you to collaborate with various stakeholders.
- | Good time-management skills.
- | Third level qualification in Graphic / UI Design or related field.

Responsibilities

- | **Collaborate** - Gather and evaluate user requirements in collaboration with UX project leads and multi-disciplinary client teams (marketing, engineering, product design, etc).
- | **Iterate** – Prepare and present rough drafts to internal teams and key stakeholders. Identify and troubleshoot UX problems (e.g. responsiveness). Conduct adjustments based on user feedback.
- | **Design** – Develop UI mockups and prototypes that clearly illustrate how a product will function and what it will look like. Design graphic user interface elements, like menus, tabs, data tables, etc. Adhere to (or document) standards on fonts, colors and images, etc.

How to Apply

Please send your CV, a link to your portfolio and salary expectations before 18 June 2021 to Seán Murphy - jobs@xwerx.com.

Xwerx is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees
