

FRONT-END DEVELOPER

xwerx

The Front-End Developer bridges the gap between design and technology.

Candidates will be able to demonstrate an in-depth knowledge of Javascript and the ability to customise framework code as required (e.g., React, Vue, Angular).

You will build functioning prototypes quickly and efficiently to help us to validate product design choices. You will also collaborate with Business Analysts, UX Designers and other Front-End Developers to deliver end-to-end solutions to our clients.

Technical Skills

- | At least 1-3 years of Software development experience using web technologies.
- | Highly skilled in JavaScript with commercial experience of the React framework an advantage. Experience with other frameworks such as Angular or Vue will also be considered.
- | Experience with CSS, SASS, and other styling technologies.
- | Exposure to server-side technologies (JSON/RPC, REST).
- | Experience with automated unit testing using Jest/Enzyme or similar frameworks.
- | Well versed in all aspects of the DevOps process, i.e. software change control and versioning.
- | Delivery focused: You are focused on shipping the product, and organise your work towards that goal.

Other Skills & Relevant Experience

- | BSc in Computer Science or equivalent from third-level or higher education institution.
- | Software development lifecycle exposure. Agile method preferred.
- | Effective communication and collaboration skills. You are a team player.
- | Highly motivated, results-driven, and a tenacious problem solver.
- | The position requires a blend of technical aptitude, business savvy, and interpersonal skills.

How to Apply

Please send CV and salary expectations before 03 September 2021 to Seán Murphy - jobs@xwerx.com.
