

Xwerx is looking for a PHP developer with 1-2 years experience to join our team. As a remote-friendly company, we offer flexible working arrangements and a collaborative work environment.

About Xwerx

We're a team of designers, developers, and innovators passionate about creating high-quality digital products and services. We value diversity, inclusivity, and open communication in everything we do.

Requirements

- 1-2 years commercial experience with PHP and associated frameworks (Laravel, WordPress)
- Proficiency in working with databases (MySQL, PostgreSQL, InfluxDB)
- Experience interfacing PHP with third-party APIs
- Familiarity with data science tools (python, pandas)
- Clean code writing skills with emphasis on future maintenance
- Experience integrating AI-powered tools into the development workflow to improve code quality, efficiency, and maintainability.
- Comfortable using Docker containers within Linux environments
- Experience deploying and managing applications on platforms like AWS or DigitalOcean

Responsibilities

- Develop high-quality digital products and services
- Configuring Git pipelines to automate testing, building, and deployment
- Monitoring and analysing logs to optimise resource utilisation
- Participate in requirements gathering and analysis activities
- Collaborate with designers to ensure outputs match requirements
- Document code and projects using standardised tools

How to Apply

Please send your CV, salary expectations, and any relevant links (e.g., GitHub) to Seán Murphy at jobs@xwerx.com

We're an equal opportunities employer and are committed to creating an inclusive environment for all employees.
